

How To: Modem & IP address

Please confirm your IP address. Email it to service@hurricanesimulator.com

1

The Cellular modem is the blue box located on the shelf inside the machine.

2

Look for the sticker on the side of the modem.

3

This number is the IP address.

4

This modem is showing no signal...problem! Make sure the antennae is standing upright and adjust as needed.

5

This modem is showing that it has a mobile signal....GREAT!

note

Please confirm your IP address with us. Email this number to service@hurricanesimulator.com at your earliest convenience.

If your Modem does not have the "signal" light on please adjust the antennae or contact us for assistance.

THANKS!
